

## Java Fundamentals

### 3-7: Sound and Keyboard Control

### Practice Activities

#### Lesson Objectives:

- Write programming statements to include sound in a program

#### Vocabulary:

Identify the vocabulary word for each definition below.

	A method that will play a sound file
--	--------------------------------------

#### Try It/Solve It:

1. Add code to play the sound Bang.wav when the **plane** and the rocket collide.
2. Record your own sound effect that will be played when you catch a barrel.
